

“Moderate changes in room temperature, even within the comfort zone, appear to affect students’ abilities to perform mental tasks requiring concentration, such as addition, multiplication, and sentence comprehension.”

U.S. Environmental Protection Agency

“The nation’s 17,450 K-12 school districts spend more than \$6 billion annually on energy — more than is spent on computers and textbooks combined. As much as 30 percent of a district’s total energy is used inefficiently or unnecessarily.”

ENERGY STAR® (The Environmental Protection Agency)

Atlantic Westchester, Inc. – keeping your schools comfortable and efficient for over 50 years!

- ✓ **Maintenance and Repair:** Routine maintenance will extend equipment life and enhance system performance. We can cater our services to meet your facility's needs.
- ✓ **Installation:** Our team of professional technicians have numerous years of experience installing HVAC and building management systems and have the know-how to optimize your HVAC systems.
- ✓ **Retrofit/Upgrade:** We can help find the best equipment solutions to your mechanical needs and budget. Utility companies and government incentives/rebates can be combined with savings from higher efficiency equipment to maximize your ROI.
- ✓ **System Performance Analysis and Tuning:** Along with our comprehensive preventive maintenance plans, we can continually monitor your system's performance and provide necessary adjustment to ensure your equipment performs at its best - no matter what age it is.
