Keeping Schools High-Performing For More Than 60 Years

Did you know that moderate changes in room temperature, even within the comfort zone, appear to affect students' abilities to perform mental tasks*?

Schools face enough challenges with optimizing their students learning, and HVAC system deficiency should not be one of them. With Atlantic Westchester's Proactive Service Model, we take on the accountability for your HVAC systems giving schools and parents peace of mind.

HVAC Report Card		
Subject	Grade	Comments
Quality Preventive Maintenance	A+	Keeps systems clean and running well.
Planned Repairs	A+	Limit disruptions with planned repairs.
System Reliability	A+	Well-maintained systems have been proven to be reliable.
Catastrophic Expense Avoidance	A+	Avoid unexpected failures with a proactive approach to solve issues before they become costly repairs.
Budget Control	A+	Our comprehensive approach holds the service provider accountable, streamlines budgeting, and avoids unexpected cost.
Smart Energy Consumption	A+	A well-maintained system increases efficiency and decreases energy use translating to cost savings.
